Geosynthetics in Roadways

North American Geosynthetics Society

Two-day workshop
(11 Professional Development Hours available)

2008 Workshop series presented by the
CORNELL LOCAL ROADS PROGRAM

Sponsored jointly by:

Federal Highway Administration
New York State Department of Transportation
Cornell University

This workshop is also sponsored by
The **North American Geosynthetics Society**

Who should attend:

This workshop is intended for engineers or technical staff who design highways and would like to gain a greater understanding of the use of geosynthetics in roadway applications.

Course description:

This workshop provides training on the appropriate, cost-effective utilization of geosynthetics in roadway applications. The course examines the use of geotextiles, geogrids, and edge drains in pavement structures, and also applications of filtration, drainage, roadway separation, roadway reinforcement, roadway subgrade improvement, and pavement overlays.

Dates and Locations

August 4-5: Onondaga County
Holiday Inn, 441 Electronics Parkway,
Liverpool, NY 13088

August 7-8: Albany County
Holiday Inn, 205 Wolf Road,
Albany, NY 12205

\$80 Workshop Fee

11 Professional Development Hours (PDH's)
are available for an additional fee of \$10

Yes, I want to register for the "Geosynthetics in Roadways" workshop!

Course Instructors:

Dr. Barry Christopher is a consultant engineer with over 30 years of experience in geosynthetic engineering, manufacturing, design, installation, and forensic investigations of geosynthetics.

Dr. Christopher is a nationally recognized expert on the use of geosynthetics. He has published over 100 publications on geosynthetics including technical papers, textbooks, design manuals, and national specifications.

L. David Suits is the Executive Director of the North American Geosynthetics Society. Mr. Suits has over 35 years experience in geosynthetics and geosynthetics testing. Retired from the New York Department of Transportation (NYSDOT), he was the Soils Engineering Laboratory Supervisor overseeing all testing and approval of geosynthetics for use by NYSDOT.

Registration

Registration includes coffee and refreshments, lunch and course materials. Registrations are limited to 3 per organization. Others will be wait-listed. If space is available two weeks prior to the workshop, we will register those wait-listed in order by date received.

Please complete the above registration form and mail or fax it to us with your check or voucher **payable to the Cornell Local Roads Program**. Registration is complete only when payment or voucher is received. Please make copies of the form as needed, and include a separate registration form for each person enrolling.

Upon payment you will receive a confirmation letter and a map to guide you to the workshop site. If you have not received this information at least one week before the workshop, please call us at (607) 255-8033.

Cancellations

If you must cancel your registration, please call us. Refunds will be made if notice of cancellation is received at least 3 work days prior to the workshop date. This allows us to adjust our food order or offer your place to someone on our waiting list. Of course, someone may substitute for you at any time.

Certificate of attendance

Upon completion of the entire workshop and payment of the registration fee, each participant will receive a certificate of attendance.

Professional Development Hours (PDH) Certificate

A certificate for 11 Professional Development Hours (PDH's) will be mailed 2 weeks after the workshop, to those completing the course, evaluation and quiz. There is an additional \$10 fee for PDH Certification.

Enrollment is limited to 30 registrants per session
